Analytic subject index

α-relaxation
– Temperature and momentum transfer dependence of the dynamics of the — in polymer melts - Colmenero et al. 182 (1992) 369
ABC-excitons
– Binding energy spectra of — of CdS - Dai and Chuu 182 (1992) 79
Acoustic resonance
– Theory of — of Ising magnets - Berim et al. 182 (1992) 71
Amorphous semiconductors
– Effect of bond-angle disorder on the dielectric susceptibility of — - Acharya et al. 182 (1992) 213
Angular momentum, photon
– The elementary static magnetic field of the photon - Evans 182 (1992) 227

Band structure, NiAl
– Electronic structure of NiAl by the FLAPW-method - Farberovich et al. 182 (1992) 267
Bayesian statistics
– Bayesian analysis of quasielastic neutron scattering data - Sivia et al. 182 (1992) 341
Binary alloys, Ising-like
– On the ground states of — with hexagonal structure - Bichara et al. 182 (1992) 42
Binding energy spectra
– — of ABC-excitons of CdS - Dai and Chuu 182 (1992) 79
Biomembranes
– The power of quasielectric neutron scattering to probe biophysical systems - Deriu 182 (1992) 349
Biopolymers
– The power of quasielectric neutron scattering to probe biophysical systems - Deriu 182 (1992) 349
Bond-angle disorder
– Effect of — on the dielectric susceptibility of amorphous semiconductors - Acharya et al. 182 (1992) 213
Breaking modes
– Neutron studies of the dynamics of globular proteins - Middendorf 182 (1992) 415

CaCdAD, Cu^{2+}-doped
– A variable-temperature EPR study of single crystals of Mn^{2+}-doped $CaCd(CH_3COO)_4 \cdot 6H_2O$ and Cu^{2+}-doped $CaCd(CD_3COO)_4 \cdot 6D_2O$ - Misra et al. 182 (1992) 186
CaCdAH, Mn^{2+}-doped
– A variable-temperature EPR study of single crystals of Mn^{2+}-doped $CaCd(CH_3COO)_4 \cdot 6H_2O$ and Cu^{2+}-doped $CaCd(CD_3COO)_4 \cdot 6D_2O$ - Misra et al. 182 (1992) 186
Carbon molecules
– Scanning tunneling microscopy study of granular $(MTl_{1.5})_3C_{60}$ (M = K, Rb) - Lang et al. 182 (1992) 223
CdS
– Binding energy spectra of ABC-excitons of — - Dai and Chuu 182 (1992) 79

Charge transfer
– Energy effects and — in metal physics; modelling in real space - Miedema 182 (1992) 1
Chemical potential
– The interpretation of coherent quasielastic neutron scattering experiments on lattice gases and similar systems - Ross 182 (1992) 318
Chudley–Elliot model
– Diffusion of chlorine in single-crystal $(Sr,Y)Cl_{2.03}$ - Goff et al. 182 (1992) 307
Cis-1,4-polybutadiene
– Local dynamics of — near the glass transition temperature T_g - Kanaya et al. 182 (1992) 403
CoAl
– Atomic disorder induced by mechanical milling in the intermetallic compound — - Di et al. 182 (1992) 91
Critical scattering
– The observation of critical narrowing in molten $^7Li_{0.62}Na_{0.38}$ by quasi-elastic neutron scattering - Wicks and McGreevy 182 (1992) 313
Crystalline-electric-field interactions
– f^3-Electronic states under hexagonal — - Radwański 182 (1992) 209
Crystallization kinetics
– DTA studies on the crystallization of In_xSe_{1-x} chalcogenide glasses - Abd El-Moiz et al. 182 (1992) 33

Data analysis
– Bayesian analysis of quasielastic neutron scattering data - Sivia et al. 182 (1992) 341
$D_4H_4(BEDTTTF)_2Cu(SCN)_2$
– ESR study of κ- — molecular superconductor - Delhaès et al. 182 (1992) 99
Dielectric susceptibility
– Effect of bond-angle disorder on the — of amorphous semiconductors - Acharya et al. 182 (1992) 213
Diffusion
– — of chlorine in single-crystal $(Sr,Y)Cl_{2.03}$ - Goff et al. 182 (1992) 307
– The ion to water-proton binding time in aqueous ionic solution - Salmon and Lond 182 (1992) 421
Diffusion coefficient
– The interpretation of coherent quasielastic neutron scattering experiments on lattice gases and similar systems - Ross 182 (1992) 318
Dimethylsulfoxide-H_2O mixtures, under pressure
– Raman spectroscopy of DMSO and DMSO–H_2O mixtures (32 mol% of DMSO) up to 20 GPa - Cansell et al. 182 (1992) 195
Disordered materials
– A physical insight into the elastic incoherent structure factor - Bée 182 (1992) 323
DTA
– — studies on the crystallization of In_xSe_{1-x} chalcogenide glasses - Abd El-Moiz et al. 182 (1992) 33

ε-GaSe
– Future directions in quasi-elastic neutron scattering - Dianoux 182 (1992) 389
– Nonlinearity and asymmetry of Raman scattering in crystals - Semjonow 182 (1992) 64
Edge excitations
– Coulomb renormalization of drift excitation frequencies in finite electronic systems in the quantum Hall effect regime - Blanter and Lozovik 182 (1992) 254

Elastic constants
– Collective excitations in a potassium–rubidium melt - Gopala Rao and Venkatesh 182 (1992) 244
Electron scattering, quantum wells
– Are there extra scattering mechanisms in the well of a resonant-tunneling diode? - Morrisey et al. 182 (1992) 61
Electron states, time evolution
– General properties of wave functions in quantum Hall systems and their physical significance - Riess and Magyar 182 (1992) 149
Enzymes
– Neutron studies of the dynamics of globular proteins - Middendorf 182 (1992) 415
EPR
– A variable-temperature — study of single crystals of Mn^{2+}-doped $CaCd(CH_3COO)_4 \cdot 6H_2O$ and Cu^{2+}-doped $CaCd(CD_3COO)_4 \cdot 6D_2O$ - Misra et al. 182 (1992) 186
ESR
– — study of κ-$D_4H_4(BEDTTTF)_2Cu(SCN)_2$ molecular superconductor - Delhaès et al. 182 (1992) 99
$Eu(Pd_{1-x}Fe_x)_2Si_2$
– Mössbauer spectroscopy of valence fluctuating — - Felner and Nowik 182 (1992) 145

Ferromagnetism
– YbNiSn, a ferromagnetic Kondo lattice - Bonville et al. 182 (1992) 105
FLAPW-method
– Electronic structure of NiAl by the — - Farberovich et al. 182 (1992) 267
Freezing transition, proton glasses
– Correlated random bonds and random fields in proton glasses - Pirc et al. 182 (1992) 137

Geometry, motional
– A physical insight into the elastic incoherent structure factor - Bée 182 (1992) 323
Glass transition
– Quasielastic neutron scattering investigation of — in polystyrene - Zając et al. 182 (1992) 365
– Future directions in quasi-elastic neutron scattering - Dianoux 182 (1992) 389
– Local dynamics of cis-1,4-polybutadiene near the — temperature T_g - Kanaya et al. 182 (1992) 403
Glasses, molecular
– Neutron quasielastic scattering from molecular liquids and glasses - Bermejo et al. 182 (1992) 289
Glassy polymers
– Temperature and momentum transfer dependence of the dynamics of the α-relaxation in polymer melts - Colmenero et al. 182 (1992) 369
Ground states, Ising-like alloys
– On the ground states of Ising-like binary alloys with hexagonal structure - Bichara et al. 182 (1992) 42

He
– Microscopic density fluctuations in a dense — lium–neon gas mixture - Westerhuijs et al. 182 (1992) 302
He, superfluid
– Quantum vortex waves in superfluid helium - Owczarek and Slupski 182 (1992) 278
Heat of formation
– Energy effects and charge transfer in metal physics; modelling in real space - Miedema 182 (1992) 1

Heavy fermions
– — in the Kondo lattice as neutral quasiparticles - Kagan et al. 182 (1992) 201
Hydration
– The ion to water-proton binding time in aqueous ionic solution - Salmon and Lond 182 (1992) 421

In_xSe_{1-x} chalcogenide glasses
– DTA studies on the crystallization of — - Abd El-Moiz et al. 182 (1992) 33
Instrumentation
– Polarization analysis techniques for quasielastic neutron scattering - Schärpf 182 (1992) 376
– The design of the IRIS inelastic neutron spectrometer and improvements to its analysers - Carlile and Adams 182 (1992) 431
Interfacial energy
– Energy effects and charge transfer in metal physics; modelling in real space - Miedema 182 (1992) 1
Ionic conductivity
– Diffusion of chlorine in single-crystal $(Sr,Y)Cl_{2.03}$ - Goff et al. 182 (1992) 307
Ionic solutions
– The ion to water-proton binding time in aqueous ionic solution - Salmon and Lond 182 (1992) 421
Ising magnets
– Theory of acoustic resonance of — - Berim et al. 182 (1992) 71
Ising-model, spin-1
– Surface phase diagrams of the spin-1 Ising model with a random surface field - Li et al. 182 (1992) 249

Jahn–Teller effect
– Stimulated cooperative — in $TmPO_4$ - Kaplan et al. 182 (1992) 53

Kondo lattice
– YbNiSn, a ferromagnetic — - Bonville et al. 182 (1992) 105
– Heavy fermions in the — as neutral quasiparticles - Kagan et al. 182 (1992) 201
Kramers system
– f^3-Electronic states under hexagonal crystalline-electric-field interactions - Radwański 182 (1992) 209
K–Rb mixtures
– Collective excitations in a potassium–rubidium melt - Gopala Rao and Venkatesh 182 (1992) 244

Lattice gases
– The interpretation of coherent quasielastic neutron scattering experiments on — and similar systems - Ross 182 (1992) 318
Liquid gases
– Microscopic density fluctuations in a dense helium–neon gas mixture - Westerhuijs et al. 182 (1992) 302
Liquids
– The observation of critical narrowing in molten $^7Li_{0.62}Na_{0.38}$ by quasi-elastic neutron scattering - Wicks and McGreevy 182 (1992) 313
Liquids, molecular
– Neutron quasielastic scattering from molecular liquids and glasses - Bermejo et al. 182 (1992) 289

Local vibrations, damped
– Quasielastic neutron scattering investigation of glass transition in polystyrene - Zając et al. 182 (1992) 365

Magnetic properties, Mn clusters
– Role of the topology on the magnetic properties of mixed-valence trinuclear manganese clusters - Gómez-García et al. 182 (1992) 18
Mathieu equation
– Uncertainty relations, rotational diffusion and quasielastic neutron scattering - Pesz and Gabryś 182 (1992) 337
Mechanical milling
– Atomic disorder induced by — in the intermetallic compound CoAl - Di et al. 182 (1992) 91
Metals
– The observation of critical narrowing in molten $^{7}Li_{0.62}Na_{0.38}$ by quasi-elastic neutron scattering - Wicks and McGreevy 182 (1992) 313
Microphase separation
– Quasielastic neutron scattering from a polymer blend in the one- and two-phase region - Floudas and Higgins 182 (1992) 361
Microscopic motion
– The power of quasielectric neutron scattering to probe biophysical systems - Deriu 182 (1992) 349
Miscibility
– Quasielastic neutron scattering from a polymer blend in the one- and two-phase region - Floudas and Higgins 182 (1992) 361
Mixed-valence
– Role of the topology on the magnetic properties of — trinuclear manganese clusters - Gómez-García et al. 182 (1992) 18
Mn clusters
– Role of the topology on the magnetic properties of mixed-valence trinuclear manganese clusters - Gómez-García et al. 182 (1992) 18
Mobility edge
– General properties of wave functions in quantum Hall systems and their physical significance - Riess and Magyar 182 (1992) 149
Mode-coupling
– Local dynamics of cis-1,4-polybutadiene near the glass transition temperature T_g - Kanaya et al. 182 (1992) 403
Modulational amplification
– On aspects of — in noncentrosymmetric and centrosymmetric semiconductors - Neogi et al. 182 (1992) 160
Molecular crystals
– Future directions in quasi-elastic neutron scattering - Dianoux 182 (1992) 389
Molecular dynamics, field-applied
– Field applied molecular dynamics (FMD) simulation of optical frequency doubling in a chiral molecular ensemble - Evans 182 (1992) 118
Mössbauer isomer shift
– Energy effects and charge transfer in metal physics; modelling in real space - Miedema 182 (1992) 1
Mössbauer spectroscopy
– YbNiSn, a ferromagnetic Kondo lattice - Bonville et al. 182 (1992) 105
– — of valence fluctuating $Eu(Pd_{1-x}Fe_x)_2Si_2$ - Felner and Nowik 182 (1992) 145

$MSiFe_6 \cdot 6H_2O$ (M = Fe, Co, Ni)
– Behaviour of iron, cobalt and nickel fluosilicate hexahydrates under pressure - Asadov et al. 182 (1992) 167
$(MTl_{1.5})_3C_{60}$ (M = K, Rb)
– Scanning tunneling microscopy study of granular – - Lang et al. 182 (1992) 223

$NdMn_2$
– Pressure dependence of the Néel temperature in — and related compounds - Kim-Ngan et al. 182 (1992) 27
$Nd(Mn_{1-x}Cu_x)_2$
– Pressure dependence of the Néel temperature in $NdMn_2$ and related compounds - Kim-Ngan et al. 182 (1992) 27
Ne
– Microscopic density fluctuations in a dense helium–neon gas mixture - Westerhuijs et al. 182 (1992) 302
Néel temperature, pressure dependence
– Pressure dependence of the Néel temperature in $NdMn_2$ and related compounds - Kim-Ngan et al. 182 (1992) 27
Neutron scattering, incoherent
– Observation of critical phenomena by incoherent neutron scattering in $Ni(NH_3)_6I_2$ - Janik et al. 182 (1992) 57
NiAl
– Electronic structure of — by the FLAPW-method - Farberovich et al. 182 (1992) 267
$Ni(NH_3)_6I_2$
– Observation of critical phenomena by incoherent neutron scattering in — - Janik et al. 182 (1992) 57
Non-Debye behaviour
– Temperature and momentum transfer dependence of the dynamics of the α-relaxation in polymer melts - Colmenero et al. 182 (1992) 369
Nonlinear optics
– Nonlinearity and asymmetry of Raman scattering in crystals - Semjonov 182 (1992) 64

Optical frequency doubling
– Field applied molecular dynamics (FMD) simulation of — in a chiral molecular ensemble - Evans 182 (1992) 118
Oxygen, condensed and liquid
– Quasielastic neutron scattering in condensed oxygen - Chahid et al. 182 (1992) 409

Phase transition, pressure dependent
– Behaviour of iron, cobalt and nickel fluosilicate hexahydrates under pressure - Asadov et al. 182 (1992) 167
Phase transition, structural
– Behaviour of iron, cobalt and nickel fluosilicate hexahydrates under pressure - Asadov et al. 182 (1992) 167
Phonon frequencies
– Collective excitations in a potassium–rubidium melt - Gopala Rao and Venkatesh 182 (1992) 244
Plastic crystals
– A physical insight into the elastic incoherent structure factor - Bée 182 (1992) 323

Polarization analysis
– — techniques for quasielastic neutron scattering - Schärpf 182 (1992) 376
Polymer blends
– Quasielastic neutron scattering from a polymer blend in the one- and two-phase region - Floudas and Higgins 182 (1992) 361
Polymeric liquids
– Future directions in quasi-elastic neutron scattering - Dianoux 182 (1992) 389
Polymers
– Local dynamics of cis-1,4-polybutadiene near the glass transition temperature T_g - Kanaya et al. 182 (1992) 403
Poly(methylmethacrylate)
– Quasielastic neutron scattering from a polymer blend in the one- and two-phase region - Floudas and Higgins 182 (1992) 361
Polystyrene
– Quasielastic neutron scattering investigation of glass transition in — - Zając et al. 182 (1992) 365
Probability theory
– Bayesian analysis of quasielastic neutron scattering data - Sivia et al. 182 (1992) 341
Protein dynamics
– Neutron studies of the dynamics of globular proteins - Middendorf 182 (1992) 415
Proton glasses
– Correlated random bonds and random fields in — - Pirc et al. 182 (1992) 137
PVC-Fe_3O_4
– Étude du comportement electromagnétique, sous champ magnétique, du composite — dans la bande des 10 GHz - Bottreau et al. 182 (1992) 173

Quantum Hall effect
– General properties of wave functions in quantum Hall systems and their physical significance - Riess and Magyar 182 (1992) 149
– Coulomb renormalization of drift excitation frequencies in finite electronic systems in the — regime - Blanter and Lozovik 182 (1992) 254
Quantum vortex waves
– — in superfluid helium - Owczarek and Slupski 182 (1992) 278
Quantum wells
– Are there extra scattering mechanisms in the well of a resonant-tunneling diode? - Morrisey et al. 182 (1992) 61
Quasielastic scattering, magnetic
– Polarization analysis techniques for quasielastic neutron scattering - Schärpf 182 (1992) 376
Quasiparticles
– Heavy fermions in the Kondo lattice as neutral — - Kagan et al. 182 (1992) 201

Raman scattering, asymmetrical
– Nonlinearity and asymmetry of Raman scattering in crystals - Semjonow 182 (1992) 64
Raman spectroscopy
– — of DMSO and DMSO–H_2O mixtures (32 mol% of DMSO) up to 20 GPa - Cansell et al. 182 (1992) 195
Random bonds, proton glasses
– Correlated random bonds and random fields in proton glasses - Pirc et al. 182 (1992) 137

Random fields, proton glasses
– Correlated random bonds and random fields in proton glasses - Pirc et al. 182 (1992) 137
Reflectometry
– Étude du comportement electromagnétique, sous champ magnétique, du composite PVC-Fe_3O_4 dans la bande des 10 GHz - Bottreau et al. 182 (1992) 173
Resonant-tunneling diodes
– Are there extra scattering mechanisms in the well of a resonant-tunneling diode? - Morrisey et al. 182 (1992) 61
Rotational diffusion
– Uncertainty relations, — and quasielastic neutron scattering - Pesz and Gabryś 182 (1992) 337

(S)-CHBrClF, chiral ensemble
– Field applied molecular dynamics (FMD) simulation of optical frequency doubling in a chiral molecular ensemble - Evans 182 (1992) 118
SEM
– DTA studies on the crystallization of In_xSe_{1-x} chalcogenide glasses - Abd El-Moiz et al. 182 (1992) 33
Semiconductors, (non)centrosymmetric
– On aspects of modulational amplification in noncentrosymmetric and centrosymmetric semiconductors - Neogi et al. 182 (1992) 160
Solid-surface structure
– Scanning tunneling microscopy study of granular $(MTl_{1.5})_3C_{60}$ (M = K, Rb) - Lang et al. 182 (1992) 223
Spin dynamics
– Quasielastic neutron scattering in condensed oxygen - Chahid et al. 182 (1992) 409
Static magnetic field, photon
– The elementary static magnetic field of the photon - Evans 182 (1992) 227
– On the experimental measurement of the photon's fundamental static magnetic field operator $\hat{B}_H$: the optical Zeeman effect in atoms - Evans 182 (1992) 237
STM
– Scanning tunneling microscopy study of granular $(MTl_{1.5})_3C_{60}$ (M = K, Rb) - Lang et al. 182 (1992) 223
Superconductivity
– Scanning tunneling microscopy study of granular $(MTl_{1.5})_3C_{60}$ (M = K, Rb) - Lang et al. 182 (1992) 223
Superconductivity, Fullerides
– Some comments on the electro-mechanical properties of charged species in large cavities - Williams 182 (1992) 261
Superconductors, molecular
– ESR study of κ-$D_4H_4(BEDTTTF)_2Cu(SCN)_2$ molecular superconductor - Delhaès et al. 182 (1992) 99
Surface phase diagrams
– — of the spin-1 Ising model with a random surface field - Li et al. 182 (1992) 249

$TmPO_4$
– Stimulated cooperative Jahn–Teller effect in — - Kaplan et al. 182 (1992) 53
Triple-defect disorder

– Atomic disorder induced by mechanical milling in the intermetallic compound CoAl - Di et al. 182 (1992) 91

Uncertainty relations
– —, rotational diffusion and quasielastic neutron scattering - Pesz and Gabryś 182 (1992) 337

Valence fluctuations
– Mössbauer spectroscopy of valence fluctuating $Eu(Pd_{1-x}Fe_x)_2Si_2$ - Felner and Nowik 182 (1992) 145

Vibrational polarizability
– Some comments on the electro-mechanical properties of charged species in large cavities - Williams 182 (1992) 261

YbNiSn
– —, a ferromagnetic Kondo lattice - Bonville et al. 182 (1992) 105

Zeeman effect, optical
– On the experimental measurement of the photon's fundamental static magnetic field operator $\hat{B}_{\Pi}$: the optical Zeeman effect in atoms - Evans 182 (1992) 237
